

Support your community while protecting your finances

WisMed Assure is the only Wisconsin based insurance firm exclusively serving the health care community. For more than 30 years we have been the insurance specialists for physicians, hospitals, clinics, health care professionals and their families. Profits generated by WisMed Assure support the Society's mission to improve the health of the people of Wisconsin.

One of the top challenges facing independent health care practices is recruiting, retaining and protecting employees. We help you meet this challenge by developing new, innovative solutions that ease premium costs and give you access to more of the benefits larger employers enjoy.
